Ann Bleed, Director
Nebraska Natural Resources Commission
% Nebraska Department of Natural Resources
PO Box 94676
Lincoln Nebraska 68509-4676

Dear Ms. Bleed:

The Lewis & Clark NRD plans to partner with several NRD's from eastern Nebraska to jointly evaluate, identify additional data needs, and conduct pilot studies to determine the appropriate methodologies to efficiently assess available ground water supplies that will further assist us in managing our water resources. This partnership will be submitting an application for funding assistance from the Interrelated Water Management Fund from the Nebraska Natural Resources Commission. We support this application and encourage approval by the Commission.

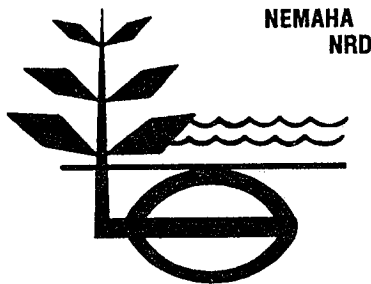

The Lewis & Clark NRD obligates \$ 5000.00 in FY 2007 to be used as the local match for the Interrelated Water Management Funds for this application. We anticipate entering into an Interlocal Agreement with the other partners to specify future areas of responsibility as we determine a scope, cost, and benefits of additional studies.

Sincerely,

A handwritten signature in cursive script that reads "Tom Moser". The signature is written in dark ink and is positioned below the word "Sincerely,".

Tom Moser

Dear Mr. Gehle

The Nemaha Natural Resources District plans to partner with several NRDs from eastern Nebraska to jointly evaluate, identify additional data needs, and conduct pilot studies to determine the appropriate methodologies to efficiently assess available ground water supplies that will further assist us in managing our water resources. This partnership will be submitting an application for funding assistance from the Interrelated Water Management Fund from the Nebraska Natural Resources Commission. We support this application and encourage approval by the Commission.

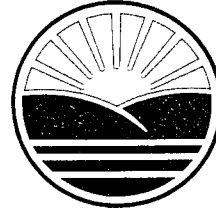

The Nemaha NRD obligates \$10,000 in FY 2007 to be used as the local match for the Interrelated Water Management Funds for this application. We anticipate entering into an Interlocal Agreement with the other partners to specify future areas of responsibility as we determine a scope, cost, and benefits of additional studies.

Sincerely,

Jim Wirth, Chair
Nemaha Natural Resources District Board of Directors

Dear Mr. Gehle:

The Papio-Missouri River NRD plans to partner with several natural resources districts from eastern Nebraska to jointly evaluate, identify additional data needs, and conduct pilot studies to determine the appropriate methodologies to efficiently assess available ground water supplies that will further assist us in managing our water resources. This partnership will be submitting an application for funding assistance from the Interrelated Water Management Fund administered by the Nebraska Natural Resources Commission. We support this application and encourage approval by the Commission.

In addition, the Papio-Missouri River NRD has obligated \$15,000 in the FY 2007 Budget to be used as part of the local match for the Interrelated Water Management Funds for this application. We anticipate entering into an Interlocal Agreement with the other partners to specify future areas of responsibility as we determine the scope, cost, and benefits of additional studies.

Sincerely,

Marlin J. Petermann, P.E.

Dear Jeremy,

The Lower Platte North NRD (LPNNRD) plans to partner with several NRDs from eastern Nebraska to jointly evaluate, identify additional data needs, and conduct pilot studies to determine the appropriate methodologies to efficiently assess available ground water supplies that will further assist us in managing our water resources. Our six NRD group is called the Eastern Nebraska Water Resources Assessment (ENWRA) and the LPNNRD is the lead agency. This partnership will be submitting an application for funding assistance from the Interrelated Water Management Fund from the Nebraska Natural Resources Commission. We support this application and encourage approval by the Commission.

The Lower Platte North NRD obligates \$20,000 in FY 2007 to be used as the local match for the Interrelated Water Management Funds for this application. We anticipate entering into an Interlocal Agreement with the other partners to specify future areas of responsibility as we determine a scope, cost, and benefits of additional studies.

Sincerely,

John Miyoshi
